

I am now experiencing total, complete and absolute health in my reproductive, nervous, digestive, respiratory and excretory systems and in all organs of my body in the next 40 days with the blessings of the Divine Intelligence present within me !

Any mental, physical, emotional and sexual discomfort or disorder is dissolved and disintegrated into the white light of the full moon.

Divine blessings and grace present in my heart help my body to heal and I lovingly accept this healing & any other healing, whichever is meant for my highest good.

My body experiences peace, love, respect, joy and solace daily as I connect to my higher self through the essence of Divine Intelligence !

Thank you !
